Net Contents: 1 gallon (3.78 Liters)

IMPORTANT INFORMATION

Read the entire **Directions for Use** and the **Conditions of Sale and Warranty** before using this product. If terms are not acceptable, return the unopened product container at once.

GENERAL PRODUCT DESCRIPTION

IMPACT™ is a nonionic general purpose spreader sticker spray adjuvant used to optimize the efficacy of agricultural herbicides, insecticides, fungicides, acaricides (miticides), plant growth regulators and defoliants. **IMPACT** improves the wetting, spreading and contact activity of pesticide applications, providing more uniform coverage without excessive run-off.

DIRECTIONS FOR USE

Shake well before using.

Always add **IMPACT** spreader sticker to the spray tank with the agitator running. Always read and follow all directions, mixing instructions, and precautionary label statements of the pesticide that is to be tank mixed with **IMPACT** spreader sticker.

SUGGESTED USE RATES

Herbicides	1 - 4 pints per 100 gals
Insecticides, Fungicides, Acaricides	2 - 8 ounces per 100 gals
Defoliants	
Target Spray Rate: 10 gal/Ac	1 quart per 100 gals
Target Spray Rate: 5 gal/Ac	2 quarts per 100 gals
Aircraft spray applications	2 quarts per 100 gals

Usage rates of **IMPACT** spreader sticker may vary depending on the conditions of the application, including but not limited to pesticide formulation, temperature and humidity, spray application equipment, desired volume of spray mix per acre, and type of plant foliage to cover.

Herbicides

IMPACT is a highly effective aid to the application of both selective and non-selective pesticides for the control of nuisance herbaceous plants and grasses. Herbicide sprays containing phenoxy and methanearsonate compounds when applied on hard-to-wet plants will benefit from the addition of **IMPACT** spreader sticker.

Insecticides, Fungicides, Acaricides

IMPACT enhances the wetting characteristics of the above pesticides and the contact activity with the target pest. The desired finished spray volume will vary with the plant size and type of foliage to be covered.

Defoliants

Plant defoliation products require specifically timed and targeted applications. **IMPACT** spreader sticker will help facilitate these specialized applications based on the desired spray volume rate. **IMPACT** may be used with magnesium and sodium chlorate, and with chlorate/borate defoliants and herbicides.

Soil Penetrant

Add 8 ounces of **IMPACT** spreader sticker surfactant into a suitable volume of water to treat 1000 sq. ft of turf.

CAUTION

KEEP OUT OF REACH OF CHILDREN

See Material Safety Data Sheet for additional information.

EMERGENCY CONTACT: CHEMTREC (800) 424-9300

STORAGE AND DISPOSAL:

Keep product from freezing. Do not re-use empty container.

PRECAUTIONARY STATEMENTS

CAUTION: Avoid contact with eyes, skin and clothing. Use proper hygiene when handling. Impervious gloves and goggles/safety glasses/safety shield are recommended for use with the concentrate. May be harmful if swallowed.

STATEMENT OF PRACTICAL TREATMENT

- Product may cause eye irritation unless flushed immediately with water for at least 15 minutes. Seek medical attention.
- Do not take internally. If ingested, call physician or poison control center immediately.
