

NODULAID™
Group O Persian Clover

MOIST PEAT INOCULANT
NODULAID
STANDARD PACK

A CULTURE OF ROOT NODULE BACTERIA

GROUP O
PERSIAN CLOVER
For inoculating up to 25kg of Persian (Shaftal)
Clover Seed

STORE IN A COOL PLACE

BECKER
UNDERWOOD®

It is guaranteed that a sample from the batch of cultures of which this culture is part has been tested and approved by the Australian Legume Inoculants Research Unit (ALIRU).

DIRECTIONS FOR USE

1. Prepare a solution of Becker Underwood SeedStik Seedcoating Adhesive.
2. Thoroughly mix the contents of this pack into one litre of cool adhesive solution.
3. Pour the adhesive inoculant mix over the correct weight of seed and mix for 1-2 minutes until the seed is evenly coated.
4. Add 3kg to 8kg of Becker Underwood SeedCote microfine limestone (calcium carbonate) all at once and mix until the seed is evenly coated. Sow as soon as possible. Coated seed can be stored for up to one week in a cool place, away from sunlight.

SLURRY INOCULATION

1. Prepare a slurry by mixing this pack of inoculant into one litre of cool, clean water, containing Becker Underwood SeedStik Seedcoating Adhesive.
2. Stir to ensure inoculant is thoroughly dispersed.
3. Pour slurry over the correct weight of seed and mix until all seeds are wet. Sow inoculated seed as soon as possible or within 24 hours. Inoculation can be done in clean concrete mixer or similar vessel.

PRECAUTIONS

Store this pack of inoculant in a COOL place. Do not store opened packs of inoculant. Do not use out-of-date inoculants.

PESTICIDES

Most pesticides are toxic to inoculants. Do not use any vessel which has contained poisonous sprays or dusts. Check with your local department of agriculture/primary industry or Becker Underwood for compatibility.

FERTILISERS

Slurry inoculated seed should never be mixed with very acid or alkaline fertiliser which will KILL the inoculant bacteria. Excessive use of starter nitrogen fertiliser, or high levels of soil nitrate can delay or reduce nodulation.

WARRANTY

The product must be used strictly in accordance with the label directions and instructions. Becker Underwood accepts no liability or responsibility for any consequential loss or otherwise arising from failure to follow these directions and instructions. The liability of Becker Underwood is limited to that imposed by statutes and, in any case, the liability is strictly limited to replacement of the product or (at the option of Becker Underwood) the refund of the price paid.
